The brilliance of a journey to the end of the millennium is that it is a journey to the end of history and the future. It is a journey to the end of the millennium, a journey to the end of the world as we know it. It is a journey to the end of time, a journey to the end of the universe. It is a journey to the end of all that we have known and all that we will ever know. It is a journey to the end of the millennium, a journey to the end of the world.
